

Balfour Beatty

M3 Junctions 2 - 4a Smart Motorway

Notifications of Slip Road or Carriageway overnight closures

For information

We opened the M3 as a four-lane smart motorway, between junctions 4a and 2 on Friday 30 June. The speed limit was initially manually controlled at 50mph while testing of the smart motorway technology was finalised. This process has now been successfully completed enabling us to operate at the national speed limit.

We have also been undertaking additional planned maintenance work and renewal of a large amount of existing infrastructure in parallel with the smart motorway works, the most extensive maintenance on the M3 since it was first built in 1971, including the full resurfacing of the carriageway, and demolition and reconstruction of Woodlands Lane Bridge at Windlesham.

The works to reconstruct Woodlands Lane Bridge and other minor planned maintenance works will continue on the M3. We will be using overnight lane and carriageway closures to complete the works and expect to open the new Woodlands Lane Bridge by winter 2017/18.

Tuesday 12 September 2017

Where: M3 Jct 4 to 4a southbound including Jct 4 entry slip and Jct 4a exit slip

Timing: 8pm – 5.30am

Diversion: M3 Jct 4 to the A331 to the A30 to the A327 to the M3 Jct 4a southbound
